Hiring Manager

Imagini Company

Hingurakgoda, North Central

Dear Sir,

Application for the post of Data Scientist

I am applying for the Data Scientist position at Imagini Company. I am a 3rd-year Software Engineering undergraduate and a beginner in data science, eager to learn and grow in this field.

I have hands-on experience with Python and Pandas, and I have worked on small projects involving data collection, cleaning, and basic analysis. I am enthusiastic about developing my skills further in data visualization, machine learning, and real-world data problem solving.

I would be grateful for the opportunity to contribute to Imagini Company while gaining practical experience in data science. I am confident that my dedication and eagerness to learn will allow me to add value to your team.

Thank you for your time and consideration.

Sincerely,

Udara Shehan
