About Me

I am a motivated Software Engineering undergraduate with an interest in data science and software development. I enjoy solving problems and applying my skills to real projects. I am currently studying for a BSc (Hons) in Software Engineering (University of Bedfordshire) and have a growing passion for data science, machine learning, and AI.

Skills

- Programming :
  (Python, Java, C++)
- Data Science Tools:
  (Pandas, NumPy, Matplotlib)
- Databases:
  (MySQL, MongoDB)
- Other Tools:
  (Git, Excel, Power BI)
- Soft Skills:
  (Teamwork, Problem solving, Communication)

Languages

Sinhala

Education

BSc(Hons) Software Engineering (University Of Bedfordshire - at SLIIT City Uni)
Expected Graduation : 2026

G.C.E. A/L (Sri Lanka)
(R/Sivali Central College)
2022 – 2023

Projects

Web Application For Raven Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Developed a responsive web application using HTML,CSS,JavaScript, PHP, and MySQL. Managed products, users, and orders through a dynamic and user-
- friendly interface. Implemented efficient back end functionality and seamless database integration for smooth performance.

Web Application For Less Fashion Clothing Store: HTML, CSS, JavaScript, PHP, MySQL

- Developed a desktop application using using HTML,CSS,JavaScript, PHP, and MySQL. Managed products, users, and orders through a dynamic and user-friendly interface
- Implemented modular, object-oriented design for easy maintenance and scalability.
- Built interactive features and efficient backend logic to ensure smooth functionality.

Mobile Application (Smart Budget Calculator) Technologies: Android Studio

- Developed a mobile application using Android Studio with interactive
- features and a user-friendly interface.
  Implemented efficient functionality and smooth performance for seamless user experience.
